Independent 130 gas soldering basic set, 0G1340004 0G13400041 nominal power 130... 13W, heating-up time 50s, operating time with one gas filling 120min, weight 478g, max. temperature 580°C, ignition piezo, soldering tip shape set, soldering tip diameter 2.4mm, version nickel-plated soldering tip, Independent 130 gas soldering set "Basic" The ?big? Gas soldering from Ersa, the Independent 130, is used wherever demanding soldering tasks need to be solved without a power supply. Due to its large power range of continuously adjustable 25 - 130 watts (compared to electric soldering irons) and its extensive range of soldering tips, there is a very wide range of possible uses in the service installation maintenance and repair area. The piezo ignition integrated in the device and operation with standard butane lighter gas ensure easy handling and high reliability. The operating time with one gas filling is approx. 120 minutes, the maximum soldering tip temperature is approx. 580°C. Like its little brother, the Independent 75, the Independent 130 is also available in two sets, the Basic Set and the Professional Set. The set includes a gas soldering iron with a mounted soldering tip, another soldering tip and a sponge container with a cleaning sponge
