Built-in loudspeaker for door intercom system 125800 Suitable for outdoor station, material other, color other, built-in loudspeaker Features: Built-in loudspeaker for mounting in mailbox systems, intercom boxes, door side installations or front panels. Up to eight mechanical bell buttons can be connected to the existing screw terminals. Signal transmission and supply of the loudspeaker via the polarity-reversal and short-circuit-proof 2-wire bus. Small design. Weatherproof speaker. High quality electret microphone. AC voltage sensing of the bell button connections to avoid oxidation on the button contacts. Securing the connection terminals against incorrect connection. Up to eight mechanical bell buttons can be connected. Color camera can be connected to the door station. Hands-free function (voice-controlled intercom with echo and background noise suppression). Speech volume adjustable. One-man commissioning through a simple commissioning procedure. Acoustic acknowledgment signal when the call button is pressed. Notes: With this component it is possible to set up door communication systems with up to 140 audio participants (e.g. 1 x built-in loudspeaker, 11 x expansion module for built-in loudspeakers, 136 x AP home station). When adding a color camera, a video control unit is required. Protection class IP44 only in conjunction with a suitable front or when installed.
