Room air system BypassHeizregEnthalp WS 470 KBET, energy efficiency class=A, energy efficiency class spectrum=A+ to G, type of ventilation=central supply and exhaust air, heat recovery via=cross counterflow, heat source=outside air, rated output=85 W, degree of heat availability=93%, rated current =11.5 A, with hot water preparation=no, with heating=no, with remote control=yes, air connection diameter=160 mm, height=857 mm, width=841 mm, depth=598 mm, weight=73 kg, volume flow=470 m³ /h, Max. Speed=2750 1/min, With water air heater=no, Comfort bypass version: With pre-heating coil, bypass and enthalpy heat exchanger, Unit as left-hand version, Highly efficient, intelligent central ventilation unit with heat recovery for comfort ventilation. Compact and very quiet device for wall or stand mounting (optional). An easily accessible USB port for service/commissioning characterizes all device variants. DC motors with integrated, automatic volume flow control for constant air volume (volume flow constancy). The DC motors can also be operated with constant pressure via the optional ZP 2 additional circuit board. High level of customer service/user friendliness thanks to modern device module technology. High flexibility thanks to various equipment and connection options. Housing: sheet steel, powder-coated. Colour: white aluminium. Interior lining made of temperature-resistant and extremely soundproof and heat-insulating plastic (EPP). The material is also characterized by its hygienic and non-hygroscopic properties. Tested by the Berlin Institute for Air Hygiene in accordance with VDI 6022 Part 1. Additional sound-insulating lining in the supply air duct. Maximum airtightness. Filter change easily possible without tools. 4 pipe connections DN 160. Can be variably equipped with connectors or pipe bends (accessories). All device variants (e.g. K) can also be retrofitted to other device variants (e.g. KRET) using optional components. DIBT approval. PH certification. RLS 1 WR control panel: Included in delivery. Switching of the 4 ventilation levels, maintenance display, error messages. Additional control panels can be connected in parallel. Touchscreen control panel RLS T1 WS: Optional. Up to 6 operating modes possible. 2 automatic modes (Auto Sensor / Auto Time). 4 manual operating modes (ECO exhaust air / ECO supply air / MANUAL / OFF). air@home: The devices have an integrated web server and can be operated via an app from home or on the go, e.g. via smartphone. Live reports, user management, control and setting via web tool, tablet, laptop and PC. Settings: Demand-based automatic mode / time-controlled automatic...

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
