Under the SIRIUS ACT brand name, Siemens offers a unique portfolio of commanding and signaling devices with global product approvals in Four modern design series made of robust real metal and high-quality plastic. The innovative snap-on concept simplifies assembly to the point that only one hand and ke in special tool is required. Groove-free holes are sufficient as mounting holes, as 100% anti-twist protection is already integrated. Thanks to the consistently high degree of protection, the robust devices are suitable for industrial use and for outdoor use. Even cleaning with a high-pressure jet is possible. Neither dust, oil nor aggressive alkalis can disrupt reliable operation. In addition to the standard wiring, the devices can also be connected to the controller via PROFINET, AS-Interface or IO-Link. This reduces your wiring effort, minimizes sources of error and gains more flexibility. The graphic online configurator provides convenient support when selecting and ordering individual devices, housings and labels. Extensive documentation (e.g. manual, 3D data, connection diagram) is available. Available versions: several colours, illuminated/non-illuminated, with/without labeling, latching/momentary actuation, various push button and front ring heights. Note: Complete device, delivery includes holder and modules. SIRIUS ACT - Performance in Action for commands and reports. Simply assembled, simply strong, simply perfect.
