Key switch RONIS key puller O+I 3SU1060-4LF11-0AA0 Number of switching positions 2, design of the actuating element other, color of the actuating element silver, design of the lens rectangular, hole diameter 30.5mm, width of the opening 38mm, height of the opening 42.7mm, switching function latching, With front ring, material of the front ring metal, color of front ring grey, degree of protection (IP), on the front IP67/IP69K, degree of protection (NEMA) 4X, key switch RONIS, 30 mm, round, metal, matt, front ring for flat installation, lock no. SB30, with 2 keys, 2 switching positions OI, latching, switching angle 90°, 10:30/13:30, key removal O+I, possible special locks: SB31, 421, 455 SIRIUS ACT key switch for higher demands on access security. Under the brand name SIRIUS ACT, Siemens offers a unique portfolio of commanding and signaling devices with global product approvals in four modern design series made of robust real metal and high-quality plastic. The innovative snap-on concept simplifies assembly to such an extent that only one hand and no special tools are required. Groove-free holes are sufficient as mounting holes, as 100% anti-twist protection is already integrated. Thanks to the consistently high degree of protection, the robust devices are suitable for industrial use and outdoor use. Even cleaning with a high-pressure jet is possible. Neither dust, oil nor aggressive alkalis can interfere with reliable operation. In addition to the standard wiring, the devices can also be connected to the controller via PROFINET, AS-Interface or IO-Link. This reduces your wiring effort, minimizes sources of error and gives you more flexibility. The graphic online configurator provides convenient support when selecting and ordering individual devices, housings and labels. Extensive documentation (e.g. manual, 3D data, connection diagram) is available. Available versions: various locking systems (Siemens, BKS, RONIS, OMR, IKON), 2/3 switching positions, latching/momentary actuation, various key withdrawal positions. Note: Please order individual devices, holders and modules separately. SIRIUS ACT - Performance in Action when commanding and reporting. Simply assembled, simply strong, simply perfect.

YOUR ADVANTAGES

 **WORLDWIDE TRADE**
