30,45 GBP excl. VAT**
 plus shipping

14-16 days* (GBR)

Mechanical pulse counter 230V 7KT5814 Type of mounting on DIN rail, analog design, counting range 9999999h, reset function without, number of characters 7, input voltage 230 ... 230V, type of voltage AC, frequency of the input voltage 60 ... 60Hz, type of drive quartz, width 36mm, Height 90mm, width in pitch units 2, installation depth 64mm, front panel width 36mm, front panel height 45mm, degree of protection (IP) IP20, degree of protection (NEMA) other, mechanical pulse counter 230V, 50Hz time and pulse counter as DIN rail mounting for the control cabinet control and Mechanical engineering. Time and pulse counters for the switch cabinet control and mechanical engineering, e.g. B. used in boilers, machine tools or compressors. The pulse counters count the switch-on frequency. The devices thus support the planning of preventive maintenance. Whether for infrastructure or for industrial requirements, Siemens offers time and pulse counters for all applications and every area of application. The time and pulse counters from Siemens are characterized above all by: 1. Convenient and simple control cabinet installation and connection technology. 2. Increases system availability by counting the switching frequency. 3. Optimum technology for reliable time and pulse counting for your safety - only from Siemens. For the safe, efficient electrical infrastructure in buildings and industry, Siemens offers a comprehensive portfolio of protective switching, measuring and monitoring devices, distribution systems, switches and socket outlets.
