Presence detector Mini Standard KNX 222000 KNX bus system, other bus systems without, presence detector version, surface-mounted mounting type, material other, material quality other, surface other, surface design not applicable, color white, KNX presence detector Mini Standard presence detector for presence monitoring (operating mode: presence detector), for Motion detection (operating mode: ceiling monitor) or for monitoring through signaling telegrams (operating mode: detector) in indoor or outdoor areas. Thanks to the discreet design, the particularly flat design and the flexible installation concept, the Mini presence detectors are well suited for objects with high architectural standards. Features: Extremely flat installation. Clamp mounting on suspended ceilings. Ceiling installation on fixed ceilings in a device box according to DIN 49073 using optional accessories. Surface mounting in a surface-mounted device box (optional accessory). Protection class IP44 enables installation outdoors or in damp rooms. Design ring that can be painted over allows the color to be matched to the wall or ceiling. After removing the design ring, all of the device's controls (e.g. programming button) are easily accessible from the front. This means that no removal is necessary for subsequent adjustment or programming via the ETS. Ceiling-mounted device with integrated KNX bus connection. PIR sensors: three sensors, integrated brightness sensor. Sensitivity of motion detection can be adjusted manually using an adjuster. Sensitivity configurable via ETS. Sensitivity adjuster on the device can be deactivated via software. Display of motion detection (permanent or only in the walking test). One function block configurable. Adjustable operating mode: ceiling monitor, presence detector, detector. Single device, main unit, extension adjustable. Operating mode for individual device or main unit: automatic, semi-automatic (manual ON automatic OFF or automatic ON manual OFF). Two outputs (if functional: ceiling monitor, presence detector). Output (With function: ceiling monitor, presence detector): switching, staircase function, switching with forced position, dimming value transmitter, light scene extension, temperature value transmitter, brightness value transmitter, temperature operating mode. Twilight level adjustable via external communication object or via teach-in. Additional transmission delay via external communication object. Adaptive follow-up time (self-learning additional transmission delay). Short-term presence function. Twilight level feedback. Lock function. Manual operation via pushbutton...
