(H)07V-U 1.5 tr Ri.100 wire solid Conductor material copper, nominal conductor cross-section 1.5mm², conductor class class 1 = solid, core insulation material polyvinyl chloride (PVC), core color transparent, flame-retardant no, outer diameter approx. 2.8mm, max. Outside cable temperature during assembly/handling 5 ... 70°C, perm. Outside cable temperature after assembly without vibration -40 ... 70°C, nominal voltage U0 450V, min. permissible bending radius, stationary use/permanently installed 17mm, nominal voltage U 750V, according to VDE 0281. In dry rooms, in devices, switchgear and distributors, in Pipes on and under plaster as well as in closed installation ducts. With protected installation in and on lights. In and on electronic equipment in high-voltage systems for the purpose of measuring, controlling and regulating. Not permitted for direct installation under plaster. Max. operating temperature 70 °C. Copper base: EUR 150 per 100 kg

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
