DALI LED control 10-24VDC 50-120W DALPD12245A Dynamic version, Type of control DALI, Number of color channels 1, Programmable, Housing plastic housing, Construction, Output voltage 10... 24V, input voltage 10... 24V, max. output current 5A, Degree of protection (IP) IP20, protection class III, length 116mm, width 42mm, height 18mm, diameter 0mm, The DALI dimmer controller can be used for unicolor lights from 10-24V/DC and requires a DALI address (automatic address setting). The actual input voltage depends on the required voltage of the lights to be supplied. The dimmer can also be dimmed via Push-L, but in this case simultaneous control via DALI is not possible. Connections: 1x input for 10-24V/DC, 1x input for DALI-BUS (optionally Push-L), 2x output for 10-24V/DC. If one output is used, it delivers the full 5A power, if both outputs are used, they each deliver 2.5A. The screw terminals are suitable for cables of 0.5mm² - 1.5mm². Technical data: ta: -20 - 50°C, tc: 60°C. Protocol: DT6, DALI1.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
