FULL VERSION

Antenna measuring device+Analyze H30E IPTV+WIFI H30E-F monitor color, measuring range satellite digital, measuring range terrestrial digital, measuring range BK digital, generates DiSEqC commands, printer, measured value memory, measured value display monitor, The H30Evolution antenna measuring device combines the advantages of a portable and a compact measuring device revolutionary functionalities and stands out clearly from the H30Flex. Thanks to the innovative multi-screen support based on WiFi/Bluetooth, the antenna meter can be remotely controlled via any Android iOS device or PC, offering the flexibility and convenience of a wireless device. To make using the smartphone even more natural, a universal bracelet for devices up to 6" is also included in the scope of delivery. H30Evolution is a light, compact and robust device that includes a variety of functionalities to measure, analyze and test analog or digital DVB-S/S2, DVB-T/T2 or DVB-C signals. This hand-held measuring device can optionally be subsequently updated with software licenses for additional reception standards and personalized according to the respective needs. Like all other measuring instruments designed and manufactured entirely in Televes Corporation, the H30Evolution takes advantage of digital processing technology and offers the user a speed of response and mathematical measurement accuracy equivalent to that of laboratory instruments. The H30Evolution is delivered in a robust transport case with a precisely fitting foam inlay for the measuring device and accessories
