Roller shutter motor including bearing 112W 10Nm 15U / min. Primus Class.Mercato, torque = 10 Nm, length = 540 mm, motors from the Classic Mercato series are particularly characterized by their very precise end point setting via threaded spindles on the motor head and by quiet and powerful running properties. The inexpensive, mechanical tubular motors are ideally suited for contract use. Properties: very precise setting of the end points via threaded spindles, quiet running, high performance reserves. 15 revolutions / minute

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
