Impulse switch 12VAC 16A 1NC+NO E290-16-11/12 electronic function for central control, DIN rail mounting type, width in modular units 1, installation depth 68mm, number of contacts as NO contact 1, number of contacts as NC contact 1, number of contacts as changeover contact 0, control voltage 1 12 ... 12V, type of control voltage 1 AC, frequency of the control voltage 1 50 ... 50Hz, rated switching current 16A, supply voltage 250 ... 250V, type of voltage of the supply voltage AC, max. incandescent lamp load 3000W, max. fluorescent lamp load 3000VA, max Fluorescent lamp load (duo circuit) 2500VA, max can. As a rule, impulse switches are controlled via impulse buttons where the light is to be operated from at least three different locations. With each control impulse that is sent to the coil-magnet system, the device switches back to the previous position and holds it mechanically until the next control impulse. In the event of a power failure, it is ensured that the last switching position is held mechanically. This technology helps to significantly reduce the electrical power loss and power consumption of the devices. Due to the very quiet switching noise, impulse switches are also suitable for use in public buildings, hotels, as well as in private living areas. Depending on the type, the devices can be controlled with common control voltages and are designed for a rated current of 16 A or 32 A.

**YOUR ADVANTAGES**

**WORLDWIDE TRADE**  
Corporate video eibmarkt®

**99% CUSTOMER SATISFACTION**  
> 500,000 customers worldwide

**DHL TRACK & TRACE**  
Shipment tracking

**COMPLAINTS HANDLING**  
Obliging and 100% safely

**25 YEARS OF EXPERIENCE**  
In worldwide mail order

**ORDER LIVE CHAT**  
With order history

**SHORT DELIVERY TIME**  
Warehousing

**REFUND**  
Within 14 days

**DATA PROTECTION**  
Guarantee

\* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

\*\* Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

\*\*\* Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
