AFZ contactors can withstand short voltage dips and brownouts (according to SEMI F47-0706). All auxiliary break contacts that are integrated or can be retrofitted are designed as mirror contacts in accordance with IEC60947-5-1 Appendix L. They also have built-in overvoltage protection and do not require any additional quenching elements. Additional accessories such as timers, wiring aids and locking elements, among other things, complete the range.
