Installation contactor 20A 12V AC/DC ESB20-11N-14 rated operating voltage 220 ... 250V, rated operating current 20A, utilization category 7, rated operating voltage 12 ... 12V, voltage type of the operating voltage AC/DC, voltage type of the operating voltage AC/DC, number of contacts as NO contacts 1, number of contacts as NC contact 1, number of pitch units 1, installation depth 58mm, additional equipment possible, degree of protection (IP) IP20, 2-pole contactors ESB20..N with a width of 18mm control 1-phase loads up to 20 A and are available in different Contact assignments and coil voltages are available. They switch electric heaters, water heaters, motors for pumps, ventilation and other drives as well as lighting. Thanks to an integrated coil circuit, they work with both AC and DC control voltages. The devices are therefore absolutely hum-free and quiet when switching. They can be lined up next to each other without a gap. An auxiliary switch that can be mounted on the left as an accessory completes the range. ESB20..N have installation design and meet, among other things, the household standard EN61095. They are therefore particularly suitable for installation in distributors.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
