Grounding Strap MBJ30-150-10 MBJ Grounding and Bonding Wires are a reliable and convenient grounding solution for applications that require flexibility and durability. The stranded tinned copper strands with solid lugs are ready for installation with no additional cutting, stripping, crimping or stamping and require no addition of tin or ferrules. The proprietary manufacturing process optimizes the electrical contact between each wire, helping to eliminate moisture problems in the palms of the hands, preventing corrosion and extending the life of the braid. Complete range of earthing terminals with a cross section of 6 - 100 mm² (11.84 - 197.35 kcmil) and a length of 100 - 500 mm (3.937 in - 19.685 in). Integral terminal lug, with no tin or crimp lugs for excellent electrical contact and tensile strength. Resistant to vibration and fatigue, less maintenance. Offers weight savings, material savings and lower impedance when compared to similar insulated cables. Ready to use out of the box with no cutting, stripping, crimping or punching required. Fast, easy installation. Recommended by the EMC/EMI guidelines with less impedance than cable. EAC compliant. RoHS Compliant.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
