Room air tester CO2 CA 1510 white measuring range lower value CO2 0ppm, measuring range upper value CO2 5000ppm, readable, with display, suitable for wall mounting, indoors, an increased CO2 concentration indicates a high occupancy of the room and an insufficient fresh air supply. For this reason, the CO2 concentration is an excellent indicator of air quality, in addition to other air pollutants measured by authorities and laboratories, and it provides air conditioning technicians with a crucial indication of the need for air renewal. The portable indoor air meter CA 1510 is easy and user-friendly to use and it stores the measured parameters. It determines the air quality in rooms based on the CO2 concentration alone or on the basis of the three measured physical variables. CO2: from 0 to 5,000 ppm Accuracy: +/- (50 ppm + 3% of reading) Temperature: from -10 °C to 60 °C Accuracy: +/- 0.5 °C Humidity: from 5% to 95 % rel. Humidity Accuracy: +/- 2% rel. Humidity Storage: 1 million measured values in the internal device memory in the form of measurement campaigns Networking: USB interfaces (devices such as USB sticks are recognized) or wirelessly via Bluetooth Software included in delivery and 1510 app available for Android Device can be locked in recording mode (display & buttons) Numerous mounting options optional (magnetic mount, wall mount, wall mount with padlock, suspension or tabletop installation)
