Spiral cable 12x0.25qmm 0.5/2.5m JSD-HK25S-12 Enabling devices are used for troubleshooting, programming and checking when no other accident prevention devices are possible or suitable. The enabling device is hand held and the operator can either press the enabling button more firmly or release it completely in a panic situation to stop the machine. An enabling device is a hand-operated start and stop switch that initiates operation and maintains it for as long as it is operated.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
