Sound insulation element SVE 125, nominal diameter of duct 125mm, for simple and inexpensive volume control, pressure regulation and sound insulation in ventilation systems by pushing into the course of the pipe. Easy adjustment thanks to pre-cut openings. Made of fire- and mold-resistant plastic in accordance with emission class M1 and fire class B. No release of harmful smoke or toxic gases in the event of a fire. Can be used with all types of poppet valves.

\* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

- \*\* Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.
- \*\*\* Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
