Security terminal 2-way flush-mounted MT/U 2.12.2 bus system KNX, other bus systems without, design of detector group terminal, type of installation flush-mounted, number of inputs 2, protection class (IP) IP20, is used as an interface between sensors of the security technology and the KNX. The device has inputs, so-called detector groups. They are used for the monitored connection of passive detectors (e.g. magnetic contacts and/or glass breakage sensors) to the ABB i-bus® KNX or for the connection of potential-free contacts in applications with increased security requirements. There are 2 relay contacts available for direct control of the signaling devices or reporting of status information. The security terminal can be used as a system with independent alarm logic or in combination with the security module SCM/S or an intruder alarm control panel (GM/A 8.1 or L240 with KNX interface XS/S). The device requires an external 12 V DC SELV auxiliary voltage (e.g. NTU/S 12.2000.1).

YOUR ADVANTAGES

 **WORLDWIDE TRADE**
 Corporate video eibmarkt®

 **COMPLAINTS HANDLING**
 Obliging and 100% safely

 **SHORT DELIVERY TIME**
 Warehousing

 **99% CUSTOMER SATISFACTION**
 > 500,000 customers worldwide

 **25 YEARS OF EXPERIENCE**
 In worldwide mail order

 **REFUND**
 Within 14 days

 **DHL TRACK & TRACE**

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
