Video multiplexer door communication 122400 Other network type, video multiplexer Features: The video multiplexer bundles the video signals from the door stations, DCS camera gateways and DCS IP gateways. A video multiplexer can combine the video signals from three door stations with a color camera. The video signals from up to five door stations can be combined with two video multiplexers. Three types of installation are possible thanks to the combi-housing: surface-mounted (in a standard junction box). Flush-mounted (in a device box). As a REG device (with the enclosed REG adapter). Notes : No further configuration is necessary during commissioning, since the video multiplexer automatically adapts to the existing cable network.
