3-5 days* (GBR)

TaHoma opening detector io 1811482 Type of mounting structure, VdS class without, radio system, color other, TaHoma opening detector io, the opening detector detects the status open or closed of windows and doors (radio module and magnet). Without using the magnet, an acceleration sensor integrated in the radio module detects the opening of a window or a door. The status is not detected. The opening detector io enables the direct triggering of scenarios as part of if-then programming. The opening detector is installed quickly and easily with double-sided adhesive tape. Scope of delivery: opening detector io, batteries, adhesive tape, installation and user instructions

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
