Mini instantaneous water heater ws DNM 3 energy efficiency class A, energy efficiency class spectrum A to G, material of the pressure vessel plastic, nominal capacity 0.1l, max. permissible operating pressure 10bar, nominal output 3.5kW, nominal voltage 1 200V, nominal voltage 2 240V, temperature display without, type of installation above table /Under counter, power control without, connected load 3.3... 3.3kW, heating system bare wire, safety shutdown pressure shutdown, protection class (IP) IP25, connection cold drinking water external thread, nominal inside diameter cold drinking water 3/8 inch (10), connection hot water external thread, nominal inside diameter Hot water connection 3/8 inch (10), suitable for plastic pipe, type of control hydraulic, height 143mm, width 190mm, depth 82mm, weight 1.4kg, APPLICATION: DNM for individual supply of a hand washbasin. Operation with pressureless valve. EQUIPMENT: Hydraulically controlled mini instantaneous water heater with flow switch and automatic flow rate control. Almost constant desired temperatures up to maximum performance. Heat output hydraulically controlled in one stage, depending on the flow rate. Desired temperature by adding to the tap. Including special jet regulator for an ideal water jet and integrated flow rate regulator for use in existing fittings (thread M22/24). Above and below table installation possible. EFFICIENCY: Mini instantaneous water heaters heat the water directly at the tap and only when it is needed. Energy and water losses due to long pipe runs are avoided. This means high energy efficiency. PROFESSIONAL RAPID INSTALLATION: Quick and easy installation. Rear panel with drilling template for 2-point attachment. Device cap and inner assembly removable. External 3/8" metal water connections. Mains connection cable prepared as standard, 3.5 kW variant with safety plug, other variants for permanent connection. IP 25. SAFETY: Bare wire heating system for calcareous and low-lime water. Safety system with pressure cut-off.
