Belt box clock Modi white 2650 composition of basic element with operating top unit, integrated timer, with brightness sensor connection, extension input, with memory function, sun protection value adjustable 2000 ... 20000lx, twilight value adjustable 2 ... 50lx, random generator, type of installation flush-mounted, material plastic, material quality thermoplastic, halogen-free, Surface untreated, Design of the surface matt, Color white, RAL number (similar) 9010, Suitable for degree of protection (IP) IP30, Power reserve 8h, Rated voltage 230V, Frequency 50 ... 50Hz, Type of fastening claw/screw fastening, This article is a belt box-sized timer for tubular motors. It closes the belt box opening and uses the available space. It is therefore ideally suited for retrofitting. The Modi control offers extensive automatic functions such as the daily/weekly program and random control. In addition, modes can be controlled via an infrared remote control. Sun/twilight control is also possible with the S/D sensor available as an accessory. You can easily switch between automatic and manual operation and between summer and winter time at the push of a button. The supply voltage is 230 V and is assigned to protection class II. In stand-by, the modes consume approx. 2 W. It has 2 external inputs with a maximum connection cross-section of 1.5 mm². Modi can operate from 0 to 40°C. The switching capacity is 8 A resistive load, 4 A inductive load. Modi has permanent data storage (8 hours) in the event of a power failure. The sun sensitivity can be selected between 2,000 - 20,000 lux, the twilight sensitivity between 2 - 50 lux.
