3-5 days* (GBR)

Separate actual cross-fastening 3SE5000-0AV03 execution of other, separate actuators, with cross fastening for position switches with added 3SE5312/3SE-I 3SF13 and position switch with separate actuator 3SE51/3SF11/3SF12 operational Sirius 3SE5 for position and position. Machine parts and position monitoring of protective devices. The modular design of the 3SE5 position switches enables a large number of variants with a small number of bearing types. The wide variety of plug and rolls meets almost all requirements in everyday industrial life. LEDs show the current status of the device. Thanks to quick connection technology, connection times can be significantly reduced. Switching points and fastening according to EN 50047 and EN 50041. The devices are approved worldwide (IEC, UL). With the appropriate switch configuration, the highest safety requirements according to PL e or SIL 3 can be met. The integrated ASIsafe electronics require low power consumption. Different housing sizes, with different switching elements, in plastic or metal or compact design are available. Some variants are optionally available with an LED status display and M12 connector. The 3SF1 series with direct connection to the AS-Interface bus system completes the portfolio. Depending on the version, drive heads and plugs as well as other mounting/connection accessories are available as accessories. Safety is a SIRIUS business.
