Terminal D 4/6.T3.P Connectable conductor cross-section, finely stranded without ferrule 0.22 ... 4mm<sup>2</sup>, connectable conductor cross-section, solid 4 ... 0.2mm<sup>2</sup>, rated current In 32A, rated voltage 500V, design of electrical connection 1 spring-loaded connection, design of electrical connection 2 Spring-loaded connection, diagonal connection position, number of levels 3, number of terminal points per level 2, mounting type DIN rail TH35, material of the insulating body thermoplastic, operating temperature -40 ... 110°C, flammability class of the insulating material according to UL 94 V0, width/grid size 6mm, height with the lowest installation type 72mm, length 90mm, end plate required, color grey, three-tier terminal blocks with screw connection from the SNA series are available with a width of 6mm. They save space thanks to three independent circuits and allow easy distribution to 7 independent screw terminals. ABB's screw connection technology has been developed to prevent loosening of connections due to vibration, shock or even accidental pulling on the cable. Thanks to the exclusive design, it is no longer necessary to retighten the connections in every case. They cover a connection requirement from 0.22 mm<sup>2</sup> to 240 mm<sup>2</sup>. The screw connection technology allows the connection of up to two conductors per terminal and thus ensures more flexibility in the control cabinet. Simple cable routing, as the conically arranged opening guides the conductor precisely into the clamping cage.
