DC motor relay 2+2NO,90Watt,1TE DCM12-UC composition base element, mounting type REG, material plastic, material quality thermoplastic, halogen-free, surface other, finish of the surface matt, color blue, suitable for degree of protection (IP) IP20, max. switching capacity 90W, rated voltage 24V, frequency 50 ... 50Hz, type of mounting clamp mounting, DC motor relay. Standby loss only 0.07 watts. 1 pitch unit. The DCM12-UC can be operated in parallel, but require free contact outputs K2/K3 of the controlling EGS12Z-UC. These are connected to terminals K2/K3 of the DCM12-UC. With a rotary switch, the functions up or down can be blocked and can be switched off completely. This lock only applies to the one connected motor. This means that individual shading elements or roller shutters can be completely or partially excluded from the automatic function of an overall control.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
