Emergency stop switching device 24VACDC 2n/o PNOZX2P 777303 Basic device version, Suitable for monitoring EMERGENCY STOP circuits, Suitable for monitoring optoelectronic protective devices, Suitable for monitoring tactile sensors, Design of the electrical connection Screw connection, DIN rail mounting possible, Rated control supply voltage Us at AC 50 Hz 24 ... 24V, rated control supply voltage Us at DC 24 ... 24V, type of voltage for actuation AC/DC, two-channel evaluation of the inputs, with start input, number of outputs, safety-related, instantaneous, with contacts 2, number of outputs , safety-related, delayed, contact-based 0, number of outputs, safety-related, instantaneous, semiconductor 0, number of outputs, safety-related, delayed, semiconductor 0, number of outputs, signaling function, instantaneous, contact-based 0, number of outputs, signaling function, delayed, contact-based 0, number of outputs, message function, instantaneous, half iter 0, number of outputs, signaling function, delayed, semiconductor 0, category according to EN 954-1 4, with TÜV approval, with UL approval, width 22.5mm, height 94mm, depth 121mm, safety switching device for monitoring EMERGENCY OFF buttons, protective doors and light barriers, with LED display for: switching status, channel 1/2 and supply voltage. The safety switching device meets the requirements of EN 60947-5-1, EN 60204-1 and VDE 0113-1 and may be used in applications with EMERGENCY STOP buttons, protective doors, light barriers. With redundant self-monitoring, the safety device remains effective even if a component fails.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
