OPEN/CLOSE control 12-24V DC DMS 5 integrated timer, suitable for wind sensor, suitable for rain sensor, extension input, with memory function, type of installation REG, halogen-free, color grey, RAL number (similar) 7035, transparent, max. switching capacity 192W, nominal voltage 24V, type of fastening clamp fastening, OPEN/CLOSE control for DC motors - with extension inputs for group and central control, 12-24V DC. The DMS 5 electronic control unit (series installation device) is a universal DC motor control for clockwise/counterclockwise rotation. Both a one-button and a two-button motor control can be implemented. Due to the priority extension inputs, it is possible to combine several DMS 5 into group and central controls. The motor running time can be limited in time to avoid overloading the motor in the event of a mechanical blockage, for example. A convenient, automatic and adjustable closing function prevents, among other things, the unintentional opening of a skylight. With blind control, the slats can be adjusted exactly, or automatically reset to a specific angle after switching off, dimensions: 18x55mm, 12-24V DC - 2 NO contacts 8A

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
